

RISC OS London Show 2021

RISC OS Open Ltd

Why?

- Why come to this show?
- Why listen to this talk?
- Why use RISC OS?

Purpose

Purpose

Safeguarding the **past**,
present and **future** of
RISC OS for **everyone**.

1. Instigated and delivered the move to Open Source
2. ROOL site is the active hub of the community
3. Promoted nine successful bounties, four underway
4. Six 'stable' releases of RISC OS over 15 years
5. NutPi / ePic commercial software bundles
6. Updated key literature, sights set on more
7. DDE is vastly cheaper, vastly improved
8. From A7000+ and RiscPC through to Pi400

1. Nightly builds giving users early access
2. More stable releases
3. Continue to promote and advise on bounties
Filing system, toolbox reunification, Paint, Git
4. Other contributions via GitLab
5. Collaborations with other groups
6. New desktop theme coming out soon
7. The User Guide is free to download as of today

Thank you

Safeguarding the **past**, **present** and **future** of RISC OS for **EVERYONE**.
